

## Simplifying Progress

# Sartorius Scholarship (m|f|d)

Would you like to know how to put theory into practice after completing your master's degree? Do you need financial support so that you can concentrate fully on your studies? Then Sartorius is the right place for you! Apply now for the Sartorius Scholarship and grow with us.

### What you can look forward to

- A monthly financial allowance during your master's studies
- An internship or the opportunity to write your master's thesis at Sartorius
- A personal mentor for one-on-one meetings for professional and personal development
- Networking with other scholarship holders and experts
- Good prospects for starting a career with us after graduation

### What will convince us

- You have a bachelor's degree in information technology, data science, chemistry, bioengineering, biomedical engineering, chemical engineering or electrical engineering with good or excellent grades
- You are enrolled in a master's program in one of these fields at a German university or intend to do so
- You want to gain work experience with a leading international pharmaceutical and laboratory supplier
- You have a good command of English; professional or study experience abroad is an advantage
- You identify with our corporate values of sustainability, openness and joy

You are welcome to send us your application directly via our career page by **July 31**. Your scholarship starts with the winter semester of the respective year (October 1 or alternatively November 1) for which you have received a scholarship.

### Why Sartorius?

Our ambition is to simplify progress in life science research and the biopharmaceutical industry to help translate scientific findings into new therapeutics faster and more efficiently. So that more people can obtain access to better medicine. Nearly 11,000 employees at more than 60 production and sales locations worldwide are committed to this vision. And together, we have grown strongly over the past years. Do you also want to contribute to our vision?

Grow with us and benefit from working with a Global Player that has kept its familiar atmosphere:

- International working environment with a high degree of creative freedom
- Feel good from the very beginning: Familiar working atmosphere and cohesion
- Open and modern offices on our campus with university character
- International career opportunities: Global network with seminar offers and trainings
- Work-life balance: Flexitime, home office
